

TIRRENA has been present in the "Marble, Stones & Tiles" sector for over 40 years with a global reach and an efficient network of offices, terminals and warehouses, located in the most important countries and stone production/processing centers in the world.

A team dedicated to the stone and ceramics industry is available to assist the customer from the quarry/depot/establishment to the destination of the goods, taking care of the necessary land, air and sea transport (by container or conventional hold), warehousing and transloading, thus providing a complete door-to-door service, active 365 days a year.

After all, every block, slab or stone product, is important to TIRRENA.

Thanks to the synergy between the qualified personnel, the deep knowledge of the sector, the consolidated procedures and the use of suitable means and facilities in strategic positions, Tirrena is able to manage from the shipment of samples up to the most demanding challenges such as the chartering of entire ships, representing in fact the ideal logistics partner with efficient, safe and cost-effective solutions for the movement of materials.
